**SAFETY FIRST**  
 Suggestions for Passengers  
 The "Safety First" movement, which stands for the conservation of human life, the making of safe men as well as safe machines, has been adopted by the Grand Trunk Railway and is now in operation on all lines of the System.  
 The public can, in many ways, co-operate with the Company and its employees and at the same time protect themselves from injury by observing the following cautions—  
 Do not get on or off moving trains.  
 Do not place grips or other obstructions in the aisles of coaches, someone is liable to fall over them.  
 Do not place too large baggage or packages in the racks of coaches.  
 Do not throw anything out of the windows.  
 Do not stand on or too near the track.  
 Do not let children run on door posts or coaches, as the motion of the train sometimes causes doors to close with considerable force.  
 Look both ways before crossing tracks.  
 Watch your step when getting on or off trains.  
 Any suggestions from patrons that will bring about greater safety are solicited.
